

## Ascolta CMMC 2.0 Documentation Template Package Pricing

### Complete CMMC 2.0 Documentation Template Packages

Contains a Microsoft Word System Security Plan (SSP) designed to meet CMMC 2.0 level 2 and 3 requirements and a Microsoft Excel spreadsheet containing all relevant practices, processes and objectives for the specified level. Additionally, each package contains required policies and practice implementation procedures required for that level of maturity. Finally, each package contains corporate polices and templates.

- **CMMC 2.0 Documentation Template – \$2,000**
  - 43 Documents
  - CMMC 2.0 System Security Plan Package
  - NIST SP 800-171 Practice Implementation Procedures
  - Company Policies
  - Additional Templates
  - Training outlines for required training

“Aren’t these types of templates available for FREE from NIST or SANS?” They are, but we’ve taken the time to provide them in easy-to-use editable formats; tailor them to meet specific CMMC requirements; and package them together with everything you need in one place.
